K. Common Intake and Case Management

- i. Local plan describes how Local Boards currently handle intake and case management and whether their existing approach allows for the tracking of co-enrolled individuals across WIOA core programs and other programs party to the State Plan.**

All Title I and Title III partners will use the CalJOBS system as the primary tool for capturing WIOA intake and case management information. Alliance Worknet will work with the other program partners to determine how to best communicate the tracking and case managing of shared customers that will ensure that all services are being coordinated and not duplicated. This will be done by developing a process to communicate electronically customer information that is pertinent to all parties involved. These systems will accurately track co-enrolled activities and will include at a minimum projected start and end dates, detailed projected service outcomes, identify coordinated services and the responsibilities of the partners associated with the co-enrolled services.

The SCWDB will ensure that Alliance Worknet, core and other program partners are having regular meetings in which ideas will be shared, program progress will be updated, best practices will be identified, and thus confirming the alignment of vision and goals with regards to the local plan.
